TO THE TRADE AND OUR PATRONS:—

Last year we listed and sold for the first time smaller sizes of conifers and evergreens than ever before; namely 8-10" and 10-12". They were so well accepted by the trade that our future propagation and growing plans have been geared to this policy. You will find these smaller sizes to be compact plants, which have been heavily sheared, so that they are actually a small edition of our larger grades in every sense.

We are constantly finding it necessary to increase our production of Rhododendrons, Azaleas and Pieris. This year our field count indicates that we will be able to furnish these plants in substantially larger quantities than last year, and the quality we believe to be unsurpassed.

We are using some growing methods and techniques here at Koster that might be of interest to you. You are cordially invited to visit us at any time.
